Subject: objection ref 2021/3839/P

[REDACTED]

Hello Kate Henry,

I live in the block of flats at 10 Howitt Close NW3 4LX. I didn't realise moving in here that there is planned huge development and extra 7 flats will be built on the roof. I would like to object. I understand the need of the development. However from my earlier experiences (I always decided to move the properties when similar things were happened) I know the noise will be massive and it put the huge impact on the standard of living, psyche state, personal life and work (I work a lot at home and at the moment this is a perfect quiet place).

I know the other persons from other flats sent you their objections already and I would like to add my objection as well.

Thank you.
Best Regards
Slaw Milewski
10 Howitt Close
