Dear Adam

The above application was discussed at the BCAAC meeting last week.

We are aware that the proposals are likely to improve the condition of the building. However, a site visit is necessary in order to assess any harm to the historic butterfly roof by the proposed mansard extension.

We note the Design and Access Statement provides drawings which have been drawn without the benefit of surveying the "Tiled Butterfly Roof" (page 18)

Please respond with suggested dates for a site visit. Many thanks.

Kind regards

Debbie Radcliffe
For Bloomsbury Conservation Areas Advisory Committee (BCAAC)
