2021/3975/T	Renata Korpak	21/10/2021 22:12:35	OBJ	I object to felling these beautiful trees. We do not have enough greenery in Belsize Park. We should protect trees, not try reduce their number.
2021/3975/T	C J Langdon	23/10/2021 15:20:21	OBJ	<p>I am writing to add my voice to those objecting to this application.</p> <p>1) Camden Council is about to host an event for COP-26 - well established trees like these four mature trees are the best carbon 'sinks' it is possible to have in an urban setting.</p> <p>2) There is already a good example on Haverstock Hill (further up on East side) of the street of a wall being adapted to tree growth.</p> <p>3) This has little or no comparable effort to stabilise the garden walls in question that these trees are affecting. As BelSoc has noted: "There is no sign of any repointing, buttressing or other mitigation actions having been carried out".</p> <p>4) The trees of heaven are a key part of the Haverstock Hill treescape that has existed for some 200 years.</p> <p>5) The application should therefore be rejected.</p>
2021/3975/T	Craig Duncan	22/10/2021 11:02:51	COMMNT	Formal Objection - If a property owner doesn't like the healthy trees that have been growing on his property, then he should sell up and move on rather than committing and act of eco terrorism and destroying these beautiful examples that have been there since before he was born and will hopefully still be there after he and his grubby little money grabbing self has shuffled off this mortal coil!
