2021/4063/P	Ottoline Spearman	10/11/2021 15:09:35	OBJ	<p>To whom it may concern,</p> <p>I wish to object to the planning application for 50A Haverstock Hill. The proposed four storey rear extension will be very visible from the public realm due to the fact that the next door dentist is a lower building and the gap between it and the school leaves a clear view of the extension.</p> <p>It is also architecturally inappropriate - it is boxy, out of proportion, and not subordinate to the existing building as it extends up to roof level, which would also impinge on the privacy of the houses opposite on Prince of Wales Road. It would also appear from the plans that the proposed apartments are very small and some well below the current minimum standards for a one person one bedroom apartment, and I sincerely hope that Camden Council would not acquiesce to the provision of sub standard residential accommodation as this is harmful to the residents and to the neighbourhood.</p>
