

Subject: Howitt Close application. 2021/3839/P

Hi Kate

With all the many issues I'm juggling at present I can't remember actually sending in an objection to this scheme. I know we've spoken about it but just to register formally:

I object to the proposed development on the grounds of the inappropriate upward extension of a building of note within a Conservation area and also because of the impact that the extra bulk would have on the neighbouring properties.

If I've already objected please ignore this repetition.

Thanks

Steve
