1 Hornby Close: householder planning application for installation of photovoltaic array

Dear Ms Dorbeck

Further to our exchange of emails earlier this month, I am writing to seek householder planning permission for the installation of a photovoltaic array onto the existing roof of our home. We have been advised that the support framework will lift the top edge of the inclined panels more than 20cm above the surface of the roof which therefore means that we need to formally apply for consent.

Given that the work is being undertaken to generate renewable energy and support decarbonisation, is part of a programme financially supported by GLA and LB Camden, and is fully in line with Policy, I very much hope that consent can be granted as quickly as possible. I trust that the supporting material gives sufficient information to allow consent.

Yours sincerely

Jonathan Kendall
