

1 ELEVATION BAY STUDY DETAIL

03 PLAN DETAIL

02 SECTION DETAIL

- 1. Regular Large windows have a 365mm upstand above the floor to hide internal clutter.
- Regular framed window panes, 1.5 m by 2.4 m high, are inset the length of a brick from the face of the brick wall.
- The opening pane is set centrally, giving an articulation of interest to the elevation.
- 4. A transom at 900 mm above FFL provides a comfortable feeling of security when the window is open.
- 5. Textured stepped brickwork spandrel with flush vertical and recessed horizontal mortar joints.
