2021/4716/P	Jill Eckersley	29/11/2021 10:57:11	INT	I live directly opposite this site, and have done for many years. Various developers have been faffing around with it for as long as I can remember, causing considerable noise and disruption to those of us on this side of the canal. Now it seems someone else is having a go, no doubt causing still more noise and disruption. Any development in this area should be a. on a human scale, not vast blocks of unaffordable apartments b. completed swiftly and efficiently and c. having regard, not only to existing residents but to all those who use the canal path and don't want it turned into a gloomy wind tunnel. I would therefore like to register my objection to this planning application.
