Dear Patrick

I would like to object in the strongest possible terms for the plans to build a block of flats opposite Falcon on Boswell Street next to Richbell. It will have a terrible effect on daylight in Falcon. I was born and brought up in the area and the land on which the new block is supposed to be built has been an open space since Richbell was built in the 1940's. It has been used as a car parking facility for residents but more over by building on it would change the established urban furniture of the street and create a crowded effect on this part of Boswell St.

Of course additional households in the street will likely attract more cars and cause greater pressure on parking spaces.

Very best regards

Steve Dagger
