4. Description of Proposed Works

Please describe the proposed works:

The installation of 6no' solar PV panels mounted on the flat roof slated penthouse of no 26 Park Village East, NW1 7PZ. The panels will be installed via low profile mounts to reduce their visual impact with the only part of the system in contact with the roof being the rubber feet of the racking system. This will ensure that no damage is done to the roof surface and as the system is non-penetrative the whole system is removable with no change to the roof at the end of its useful life. The solar PV panels will offset the homeowners energy bill, reduce their carbon footprint, and aid the country's and council's target of reaching carbon neutral.
