2021/4716/P	Stephen Daniel	03/12/2021 21:09:28	OBJ	<p>There are enough flats already, causing noise disturbances that the Council does nothing about, because the noise-emitters are not council properties, and neither are those blighted by it.</p> <p>Considerate constructors will, if the years and years of previous building and disturbance have indicated, start earlier than allowed, even if the constant sleep-disturbing noise they make is 'only' someone throwing tools around and clearing up.</p> <p>I would like to see an equality analysis undertaken, to identify who will be most impacted by this (yet another) extended period of noise and disturbance, particularly as so many residents are now working from home more often. Such an analysis needs to form part of the decision-making process, and not simply a post-decision 'rubber-stamping' exercise. I would expect this analysis to be published, consistent with Public Sector Equality Duty requirements.</p>
