We are all probably aware that some residents, and street, views, can be blighted by ugly paraphernalia, such as aircon units, etc on top of roofs, Where is the exact location of this, and to what extent is it visible?</p> <p>Also it seems the applicant is a telecons company. What is the equipment for? Is for medical use of the hospital or they renting the roof space from RFH for commercial use of the microwave dishes?</p> <p>Some photos or drawings of the equipment in the proposed application would be very helpful so that we understand the application.</p>
