Dear Malek

Please find attached the final decision notices granting planning permission and listed building consent for the staircase works and replacement entrance door to No 4 Handel Street.

I draw your attention to the conditions and informatives on both consents, with particular reference to the conditions prohibiting the removal of the historic door surround and the fanlight surround. As these are historic and most likely original features, they must not be removed from the property. This means that the new door and the new fanlight glazing bars and glass must be fitted in-situ to these surrounds, rather than into new surrounds either on or off site.

Please get in touch if you have any questions.

Kind regards
Catherine
