Subject: About Tybalds planning application (ref: 2021/3580/P)

[REDACTED]

Dear Camden Planning

Hello. We object to planning application 2021/3580/P which proposes a block next to Richbell on the car park. This building will have a massive effect on the quality of our living. It will block what little view we have left of sky and the trees(nature) beyond. The impact on the daylight to our windows is very substantial and will make our home very dark. We will not be able to see nature or the sky. Our flat is already dark before this building will be built. Our only room that does not face this new building faces north. We get hardly any sunlight even now.

The building is bigger and closer than the one proposal before and so will have a bigger impact on our home.

All our rooms (except one of our bedrooms which only has a north facing window) and living room windows face this new block so it will have a much bigger effect than the people think on our flats and the quality of our and our children's life.

The new building will make the courtyard darker as well and there is nothing interesting being done to the courtyard. So it will stay not looked after. We would like to grow food. Can we have big planters for that and space for children to play that does not get split by a great big ramp and railings.

Block D will create unacceptable harm to our homes and lives. We should be planting greenery and trees not building new buildings. We do not want to loose shed storage either.

Thank you

Abdul Mozid

Flat 39 Falcon.
