2021/4585/P	Pierre-Antoine Boulat	14/12/2021 12:51:07	COMMNT	<p>Dear Sir or Madam, I live on Greencroft Gardens, at the level of the proposed application. I object to it for reasons of increased traffic and car movements. With one car parked in front of the other in the basement, there will be endless movements of cars when the car in front will have to be taken out and the car in the back will have to be taken out too to allow for the this. Cars will endlessly move in and out and the lift be operated.</p> <p>I also object to the perfunctory flooding analysis. In 2021 ther was severe flooding in the area, and such a basement would allow for damage to property and adjoining properties.</p>
