Hi Tony,

Thank you for your email.

At present I cant give you a specific RAL colour, though I have asked the Project Manager to investigate as I understand that they do have a sample of the existing cladding and will sent it to me to establish a colour match. I'll supply a RAL reference as soon as that is available.

As to floor levels, it is the top three floors, so from ground level (entrance), that will be the 7th 8th and 9th floors.

Kind regards

Brendan Barry
