The Council has considered your application and decided to grant Approval of Details (Listed Building).

Informative(s):

- 1 Reasons for granting approval

Condition 3 (part b) required plan, elevation and section drawings of all new doors.

The details have been reviewed by the Council's Conservation Officer who confirms they are sufficient to discharge condition 3 (part b). The new doors would be complementary and sympathetic to the host buildings, and would safeguard the special architectural and historic interest of the building.

It was queried whether the proposed door frames could be made thinner, but after further clarification from the scheme architects, officers are satisfied that the door frame widths have been kept to a minimum in terms of structural and functional requirements.

No objections were received prior to determination and the Bloomsbury CAAC confirmed they have no comment. The full impact of the proposed development has already been assessed. The proposed details would not have a harmful impact on the appearance or significance of the host building.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the details are in general accordance with the requirements of policy D2 of the London Borough of Camden Local Plan 2017.

- 2 You are reminded that condition 3 (parts E, F, G, J, M, N, O, P, and Q) of listed building consent granted on 29/11/2019 (reference 2019/2790/L) are outstanding and require details to be submitted and approved.
- 3 You are reminded that the glazing manifestations remains to be discharged as part of condition 3 (part e).

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
