Informative(s):

1 Reasons for granting permission/consent-

The proposal is for the display of 2x internally illuminated signs behind the shopfront glazing. The proposed signage is considered to be acceptable in terms of its size, design, colour, materials, positioning, fixing method and illumination, and luminance level. Furthermore, the proposed signage would not obscure any significant architectural features or otherwise visually harm the appearance of the host building or the streetscene.

The signage would not be harmful to either pedestrians or vehicular safety in accordance with the Camden Planning Guidance, nor would it have any adverse impact on neighbouring amenity.

The site's planning and appeals history has been taken into account when coming to this decision. No objections have been received.

As such, the proposed development is in general accordance with policies A1, D1 and D4 of the Camden Local Plan 2017, the London Plan 2016, and the National Planning Policy Framework 2019.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.
