Camden Planning and Development

Dear Ms Fieldsend,

Application Number 2021/4294/P 18 Greville Street

I am Robert Wilson, owner of Bleeding Heart Restaurants.

I am writing, as the occupier of the bookings and management office on the third floor of 19 Greville Street, to object to the above application.

I very much agree with your pre-application advice, and your conclusion that "It is considered that the rear extensions, in their current form and scale would harm the character and appearance of the host property, terrace and Hatton Garden conservation area. This element in its current form would not be seen favourably at application stage by officers".

The extension now proposed would project past the roof terraces on the second and third floors at the rear of 19 Greville Street.

I note that the glazed door in my third floor terrace is shown as a window. My attached section shows the windows and door and the overlap of the proposed building accurately.

The proposed development will impact negatively on my right to light and on my quiet enjoyment of the third floor terrace,

I urge that consent should not be granted for any development larger than that already consented.

Yours,

Robert Wilson
