2021/5960/L	Richard and Phebe Robinow	20/12/2021 15:19:17	SUPPRT	<p>We wish to support the application to install solar panels at 26 Park Village East (to which, as the occupants of 28 Park Village East, we are the immediate neighbours).</p> <p>We value the character that the elegant Nash designed houses in Park Village East provide and we wish to see the houses preserved. To achieve that, we strongly believe that Nash houses must remain habitable and that that entails a willingness to adapt to necessary change. Climate change was not an issue when Nash produced his original designs but it is today and this should be recognised and sympathetic compromise to assist in the reduction of carbon footprints should be permitted.</p>
