2021/5353/P	Tom Symes for Belsize Society	21/12/2021 17:42:05	OBJ	Air conditioning/comfort cooling of this kind should not be included in residential buildings because it conflicts with the London Plan Policy S14 and Policy CC2 of the Camden Local Plan, specifically Paras 8.42 and 8.43. The building was rebuilt following the fire, presumably meeting modern insulation standards, and it is most unlikely that there are any special circumstances that would have meant that consent would have been given for it had it been applied for. The application should be refused and the equipment removed.
