I live at 67a Endell St

I object strongly to the proposal, on all of the various grounds eloquently set out by the objectors which I endorse as my own. I can't find a space on the planning website to object. I received no document, as far as we know, Our property will be blighted by the scale and nature of the development, and our precious remaining light will be diminished by a substantial tower which will reduce sunlight to our terrace.
