Planning application ref 2021/4368/P

Mr and Mrs Havakuk

2 Quickswood

London NW3 3SJ

Addendum to objection submitted on 29.01.2022

In order to illustrate the issue of loss of amenity if this application is approved, there appears below a screenshot from Google Earth which shows 2 Quickswood marked up in mauve and blue respectively, and their patio gardens outlined in the matching colour. The proposed upward extension on 2 Quickswood is coloured red. The screenshot shows how very small the patio gardens of these particular courtyard houses are compared with neighbouring streets in the development. It also shows the large south-facing garden of 2 Quickswood fronting King Henry's Road. If the upward extension is built, it will materially reduce the light reaching the rear of [REDACTED] and its west-facing patio garden, whose diagonal measurement from the inner corner of the L-shaped house is only 3.5 metres.
