2021/6108/P	K McDonagh	04/01/2022 11:46:01	OBJ	<p>The estate is being plagued by drug dealers and men using drugs including gas canisters most nights. The canisters litter the pathways. Adding benches will make this easier for this antisocial behaviour to continue. This behaviour is not dealt with now and will only get worse as the weather improves. There is also a loud echo on the state so more noise means more disturbance for us residents who already deal with lots of night time noise as well as noise 6 days a week from the construction site.</p> <p>The current grassy area is well loved and well used as a piece of nature. Why change it? Why add items that will make things less natural and undoubtedly lead to more antisocial behaviour.</p> <p>Why not just update the play areas that already exist, build higher fences round the play areas to stop the drug dealers and users being in there at night.</p> <p>Who thought of these ideas? Did anyone actually see what the residents want and need? As these plans seem to only benefit the undesirables in the area.</p>
