Informative(s):

- 1 Reasons for granting permission.

The existing site consists of a 5 storey building towards the western end of Goodge Street and comprises of existing retail units at ground floor level and residential units at first, second, third and fourth floors.

The proposal is for the replacement of aluminium double glazed windows and balcony doors on the front, side and rear elevations, on the first, second and third floors.

The proposed replacements windows and balcony doors will be aluminium double glazed with tilt turn openings.

The windows and doors are acceptable in terms of material, location and design. Overall therefore, the proposals are considered to be sympathetic to and in keeping with the existing appearance of the host property in terms of the design, locations, proportions and materials, and would preserve the character and appearance of the building, and as such, is acceptable.

There are no amenity concerns to neighbouring properties given the proposal would mainly replace existing building features and fenestration.

The site's planning and appeals history has been taken into account when coming to this decision. No objections have been received following statutory consultation.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the Charlotte Street Conservation Area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act [ERR] 2013.

As such, the proposal is in general accordance with policies A1, CC1, D1 and D2 of the Camden Local Plan 2017, the London Plan 2021 and the National Planning Policy Framework 2021.
