[REDACTED]

Hello Tony,

The BCAAC has considered the above application and strongly 'Objects'. These communication towers (6 antennas and 2 dishes on tripod stands) are completely out of keeping with the Sevens Dials Conservation Area. At a minimum, screening would be needed to make them not visible to the public realm. We also notice that the freehold owner of the building has neither been informed of these intentions and has other plans for this area.

Regards,  
Marianne Jacobs-Lim  
on behalf of the Seven Dials CAAC
