Subject: Re: Request for consent to trim and shape a tree with a Conservation Order in Camden

Hi

Please find attached pictures of the May tree in our back garden at 28 Murray Mews. What is sought is to reduce the crown by 3 feet. We have not appointed a tree surgeon ourselves but we want to get the job done by our neighbours' appointed tree surgeon. I believe they already have permission to reduce their tree (back garden 30 Murray Mews) and they are waiting for us to get permission to trim ours so we can do the work together. Is this information sufficient to get a decision? Do the neighbours' tree surgeons also need to apply through the portal or is this OK?

I look forward to hearing from you.

Regards,

Norman Sheppard
