

GREEN WALLS - COMPTON CLOSE (west elevation of 59 Clarence Gardens)

EXISTING ARRANGEMENTS
As shown in the adjacent photograph the existing site comprised of a 14000mm wide planting bed, enclosed by 600 mm high bow top fencing. The adjacent brick wall (west facade of 59 Clarence Gardens) is a blank wall with no window or openings.

PROPOSALS
The existing planting bed is to be cultivated and planted with shade/drought tolerant plants, including evergreen climbers that will be supported by a wire trellis attached to the wall. The bow top railings will be replaced with 450 mm high timber rail to match the other green walls in the neighborhood. Introducing greenery and seasonal interest to soften the surrounding built environment.

LOCATION PLAN - Site Address Compton Close, Clarence Gardens, NW1.

Proposed Green Wall to match those in the surrounding streets, including metal trellis, timber knee rail and planting style.

Robert Street GreenWall

PLAN OF GREEN WALL PROPOSALS
