2021/5362/P	William Nelhams	13/01/2022 11:54:03	COMMNT	<p>I am the owner of 3 Shepherds Walk and having also been consulted by other neighbours wish to submit the following observations on planning application 2021/5362/P</p> <p>The proposed roof extension substantially increases the bulk and mass of the skyline to this typical Hampstead Village street with mostly 2 storey modest houses particularly visible as seen from Rossllyn Hill Th majority of houses in the street have gently pitched roofs and the proposed box shape is somewhat obtrusive being taller than all the others and the type and dark colour of the cladding material covering most of the facade does not preserve or enhance the character or harmony of this conservation area</p> <p>It has been suggested that the drawings submitted are somewhat ambiguous as to the proposal seen from street level and perhaps CGI images could be provided please for further clarification</p>
