The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans 195-000-Location Plan, 195-001-Existing Site Plan, 195-002-Existing Lower Ground Floor Plan, 195-003-Existing Upper Ground Floor Plan, 195-005-Existing Rear Elevation, 195-007-Existing South Elevation, 195-009-Existing Section, 195-012-Existing Lower Ground Floor Plan, 195-013-Existing Upper Ground Floor Plan, 195-015-Proposed Rear Elevation, 195-017-Proposed South Elevation, 195-019-Proposed Section, 195-20- Site Photographs, Planning Statement.

Reason: For the avoidance of doubt and in the interest of proper planning.

- 3 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017 and policy DH1 and DH2 of the Hampstead Neighbourhood Plan 2018.

Informative(s):

- 1 Reasons for granting permission.
This proposal includes infilling the modest lightwell between the existing house and the rear extension by covering it with a glazed rooflight. The windows of the extension facing the garden would be replaced with slim profile glass doors. The existing timber staircase that leads from the upper ground floor rear terrace down to the garden would be removed.

The removal of the timber staircase structure would reduce visual clutter and contribute to the openness of the rear gardens. The proposed raising of the parapet walls around the lightwell with brick painted to match the existing side wall is acceptable. The extent of glazing would be similar to the existing and not change the solid to void ratio. Overall the works would enhance the character of the building and conservation area.

Considerable importance and weight has been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

There would be no harmful impacts to neighbouring residential amenity.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the London Borough of Camden Local Plan 2017 and policies DH1 and DH2 of the Hampstead Neighbourhood Plan 2018. The development also complies with the London Plan 2021 and the National Planning Policy

Framework 2021.
