The Council has considered your application and decided to grant permission subject to the following conditions:

EX01; EX20; EX21; EX11; EX10; L01 (Location Plan); EX02; PL(00)21; PL(00)20; PL(00)03; PL(00)25; PL(00)22; Design and Access Statement

Reason: For the avoidance of doubt and in the interest of proper planning.

Informatives:

- 1 Reasons for granting permission.

The proposal involves the installation of 2 rooflights to the existing front roof slope and 2 rooflights to the rear roof slope of the application building to serve Flat A on the first floor. Each rooflight is modest in scale and acceptable in terms of their siting and design. They would appear as a subordinate additions and the majority of the rooflights would not be visible from the public realm. The proposed rooflights are in keeping with the prevailing character and appearance of surrounding area where similar rooflights are common, and would not harm the appearance of the host building. Overall, the proposed rooflights would not raise any significant concerns in relation to impact on neighbouring amenity in terms of loss of light, outlook or privacy.

The Camden Square Conservation Area Appraisal and Management Strategy 2011 indicates that new rooflights to front roof slopes should be conservation style. The proposed rooflights are conservation style and would be flush against the existing roof plane. As such, the proposed rooflights would preserve the character and appearance of the host building, neighbouring properties and the wider conservation area.

Special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

No objections were received prior to making this decision. The planning history of the site has been taken into account when making this decision.

As such, the proposed development is in general accordance with policies A1, D1 and D2 of the Camden Local Plan 2017. The development would also accord with the National Planning Policy Framework 2021 and the London Plan 2021.
