To whom it may concern

As regards to proposed rear alterations and extension.
Application : 2021 / 5349 / P; 22 Tanza Road NW3 2UB

[REDACTED]

We more than empathize with them over the potential intrusion that the proposed alterations would undoubtedly cause.

The proposed rear elevation is going to protrude in an overwhelming way that destroys the essential character of what has been a traditional family home where we as neighbours were able to enjoy our sense of privacy in a manner that was conducive to the original designs of the properties. The new proposals would potentially upset the existing sense of neighbourly harmony.

As Tanza Road is on such a steep hill any basement construction would be of some concern, as in the past (due to the clay soil / weather / subsidence etc) garden walls have been damaged and on a couple of occasions two entire walls have collapsed on either side of our property
[REDACTED]

We would be in favour of a more modest interpretation of the proposals.
