Description of the Proposal

Please note in regard to:

- **Fire Statements** - From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. [View government planning guidance on fire statements](#) or [access the fire statement template and guidance](#).
- **Permission In Principle** - If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** - From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or [view government planning guidance on determination periods](#).

Description

Please describe details of the proposed development or works including details of proposals to alter, extend or demolish the listed building(s)

Repairs and alterations to the flat roof, rear mansard and rear dormers. To resolve multiple leaks and damp ingress, the flat roof will be upgraded with insulation to meet building regulations and a roofing membrane (this will raise the flat roof by approximately 150mm) and the rear mansard (which is not part of the original historic fabric) will be insulated and re-slatted with slate to match existing. Removal of a redundant water tank on the roof. Relocation of one existing rooflight and installation of three new rooflights. Installation of an air-source-heat-pump in a discrete location behind the existing parapet and not visible from any part of the public realm. A set-back section of the mansard to the northern end of the rear elevation will be reworked to form a continuous mansard and the two dormers will be rebuilt as a single dormer with access onto the belvedere terrace. The dormer to the southern end of the rear elevation will be insulated and fitted with new natural zinc surrounds. The existing rear windows at second floor level (which are not part of the original historic fabric) will be upgraded.

What was the date (approximately) of the erection of the part to be removed?

Month

June

Year

1965

(Date must be pre-application submission)

Please provide a brief description of the building or part of the building you are proposing to demolish

The rear mansard and dormers are not original. Our historical research suggests that they were added in 1965 and the work was carried out without much apparent sensitivity to the heritage asset. We propose to remove the set-back section of mansard and two dormers to the northern end of the mansard in order to create a continuous mansard and a single improved dormer providing access to the belvedere terrace.

Why is it necessary to demolish or extend (as applicable) all or part of the building(s) and or structure(s)?

The roof and dormers are leaking and in a poor state of repair. By removing the small section proposed, it will be possible to create a substantially improved mansard and dormers with a more resolved formal relationship to the rest of the heritage asset and glazing with an improved geometrical relationship with the proportions of the lower windows (as described with diagrams in the Heritage, Design & Access Statement

Authority Employee/Member

With respect to the Authority, is the applicant and/or agent one of the following:

(a) a member of staff

(b) an elected member

(c) related to a member of staff

(d) related to an elected member

It is an important principle of decision-making that the process is open and transparent.

For the purposes of this question, "related to" means related, by birth or otherwise, closely enough that a fair-minded and informed observer, having considered the facts, would conclude that there was bias on the part of the decision-maker in the Local Planning Authority.
