2021/5946P	Linda Holmes	02/02/2022 12:25:37	COMBINT	We the residents of Haddo House do not want the above antennas in our roofs. We postested before about this and nothing has changed we still feel the same way. We are concerned about our health and feel these antennas are a danger to us. Research has been proven that they can and do cause cancer like system in some people. Some of our residents are not in good health [REDACTED] And feel this will not help us. The look is also a concern this was a listed building and it will spoil the look of it. I am not sure why you thought we would now agreed to it.
