Hi Tania

Hope all is good!

See email below concerns a case you are dealing with.

Thanks

Hi

I could not see a link to comment on this application to change the facade of The Hercules Pillar bar, but found this email address to lodge my comments.

At the moment there is a double doors into the bar and either side of this doors there are sash windows. I've never seen these windows open and hence in the Summer they currently keep the noise within the bar.

So my concern is the proposed application will replace these sash windows with new bi-fold doors and the door will be removed to the right. This will allow 4 larger tables to be positioned outside with an additional 4 chairs.

Having doors that open rather than windows that are shut will cause a public nuisance (increased noise), as will placing an extra 4 chairs on the pavement.

This is a very busy bar and often on a weekend drinkers spill out from the bar and stand over people who are seated outside, blocking the pavement.

I ask you to consider not replacing the windows with doors and limit the number of outside tables and chairs.

Thanks

Simon
