The neighbourhood does not need more such ventures, adding extra noise and rubbish.</p> <p>Use of the basement [lower floor] for catering purposes will also add extra environmental stress for tenants at 72 &amp; 70 Frederick Street, whose gardens are immediately overlooked by the basement exit from the property which debouches straight into their garden.</p> <p>Added noise from heating and air conditioning will raise environmental stresses for local wildlife; as will added light pollution. This will also impact local residents.</p>
