Subject: Murphy's Yard Developmet

I want to object very very strongly indeed to the proposed development of Murphy's yard -it contravenes all borders of the heath regulations and would be quite inappropriate for the area. It would shield all the people who live next to the heath from this very important amenity
the Royal Free Hospital -a total monstrosity and eyesore visible from everywhere - is only 12 stories -the proposal here is 19 stories which is completely ludicrous and utterly inappropriate
-in addition not only would it mean that the people who come from miles around to look over the city would be unable to do that

but it also is an absurd at attempt at pretending (for cynical commercial considerations -only to get approval -to be ecological by saying that there is no car parking there - it simply means -since everybody has cars -that they will be parking in the local streets putting the onus on the local council and all the local inhabitants

Yours
Jill Purce
