Dear Sir/Madam

DECISION

Planning (Listed Building and Conservation Areas) Act 1990

Listed Building Consent Granted

Address:

House Excluding Lower Ground Floor
123 Parkway
London
NW1 7PS

Proposal:

Installation of internal secondary glazing to the ground, first, second and third floor on front elevation.

Drawing Nos:

The Council has considered your application and decided to grant Listed Building Consent subject to the following condition(s):

Conditions And Reasons:

- 1 The works hereby permitted shall be begun not later than the end of three years from the date of this consent.

Reason: In order to comply with the provisions of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990.

- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:

Site location plan; C/33372/01-S01; C/33372/01-S02; C/33372/01-S03; C/33372/01-S04; Design and Heritage Statement 123 Parkway, London NW1 7PS;

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 3 All new work and work of making good shall be carried out to match the existing adjacent work as closely as possible in materials and detailed execution.

Reason: In order to safeguard the special architectural and historic interest of the building in accordance with the requirements of policy D2 of the Camden Local Plan 2017.

- 4 The works hereby approved are for a temporary period only and shall be removed from the property, and the affected historic fabric reinstated to its pre-installation condition and made good using sensitive repair techniques using materials and techniques to match the existing building, within 6 months of the HS2 noisy works period ending, for which they are required.

Reason: The type of works are not such as the local planning authority is prepared to approve, other than in exceptional circumstances and for the limited period required, in view of their appearance and their impact on the special interest of the listed building. The permanent retention of the works would be contrary to the requirements of policy D1 and D2 of the London Borough of Camden Local Plan 2017.

Informative(s):

- 1 This application seeks approval for the installation of internal secondary glazing to seven windows to the front elevation for noise mitigation works during construction of HS2 railway.

The application site is a grade II listed single-family dwelling situated in a 1830s three-storey terrace of four houses with basements and mansard attic storeys, located in the Regent's Park Conservation Area.

The proposed design is intended to meet the functional requirements of reducing noise within the residential property whilst minimising the impact on the significance of the heritage asset and minimising inconvenience to the residents.

The secondary glazing frames will be manufactured from aluminium with a polyester powder coating or similar and will be installed into a new timber sub-frame which is fixed to the existing wall surface or window reveal.

As the secondary glazing needs to be set back internally from the original window position (by between 100 and 150mm) to achieve the desired acoustic performance and minimise noise levels from the HS2 works, from the exterior

the secondary glazing including its framing is likely to be visible when viewed obliquely. Notwithstanding, the visual impact on the exterior of the listed building will be low and will only last for the duration of the construction works due to the temporary and reversible nature of the installation.

A condition of this consent requires that, on completion of the HS2 construction works, the secondary glazing will be removed from the property and the affected historic fabric reinstated to its pre-installation condition and made good using sensitive repair techniques. Fixings will be carefully removed to prevent damage to joinery and plasterwork. Fixing holes in the existing timber joinery will be filled with a good quality wood filler and finished flush with the surrounding joinery surface. The internal face of the existing window joinery will then be redecorated to match the existing colour.

The proposed secondary glazing will cause less than substantial harm (para 202 of the NPPF) to the special interest of the listed building. This level of harm has been reduced to the minimum possible and the works will be removed when no longer required. Great weight is given to the special interest of the listed building but this is balanced with the public benefit of keeping the building occupied and in residential use (its optimal viable use) during lengthy HS2 construction works. In this case the public benefits of the scheme outweigh the limited amount of reversible harm which is proposed and therefore it is recommended that the application is approved.

The site's planning history was taken into account when arriving at this decision.

Special regard has been attached to the desirability of preserving the listed building and its features of special architectural or historic interest, under s.16 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposal is in general accordance with policies D1 and D2 of the Camden Local Plan 2017. The proposed development also accords with the London Plan 2021 and the National Planning Policy Framework 2021.

- 2 You are advised that any works of alterations or upgrading not included on the approved drawings which are required to satisfy Building Regulations or Fire Certification may require a further application for listed building consent.
- 3 This approval does not authorise the use of the public highway. Any requirement to use the public highway, such as for hoardings, temporary road closures and suspension of parking bays, will be subject to approval of relevant licence from the Council's Streetworks Authorisations & Compliance Team, 5 Pancras Square c/o Town Hall, Judd Street London WC1H 9JE (Tel. No 020 7974 4444). Licences and authorisations need to be sought in advance of proposed works. Where development is subject to a Construction Management Plan (through a requirement in a S106 agreement), no licence or authorisation will be granted until the Construction Management Plan is approved by the Council.

- 4 Your proposals may be subject to control under the Building Regulations and/or the London Buildings Acts that cover aspects including fire and emergency escape, access and facilities for people with disabilities and sound insulation between dwellings. You are advised to consult the Council's Building Control Service, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (tel: 020-7974 6941).

- 5 Noise from demolition and construction works is subject to control under the Control of Pollution Act 1974. You must carry out any building works that can be heard at the boundary of the site only between 08.00 and 18.00 hours Monday to Friday and 08.00 to 13.00 on Saturday and not at all on Sundays and Public Holidays. You are advised to consult the Council's Noise and Licensing Enforcement Team, Camden Town Hall, Judd St, Kings Cross, London NW1 2QS (Tel. No. 020 7974 4444 or search for 'environmental health' on the Camden website or seek prior approval under Section 61 of the Act if you anticipate any difficulty in carrying out construction other than within the hours stated above.

In dealing with the application, the Council has sought to work with the applicant in a positive and proactive way in accordance with paragraph 38 of the National Planning Policy Framework 2021.

You can find advice about your rights of appeal at:
