

Subject: Murphy's development

I am writing to express our objections to the above plan

It is clearly going to be too high and obstruct the views from parliament hill which are there for all visitors to enjoy, such an iconic London view

It is also going to have too many people living there without any green space -thousands from what I can gather- iso they will inevitably go to the Heath which is already over used

Please can you consider the objections... there must be other ways of providing accommodation on a smaller scale.

Yours faithfully

Heather and Neil Johnson
