

Subject: Murphy's Yard Development

Dear Madam/Sir,

I gather that you are inviting opinions on the above, and whether it should go ahead. Having read the description of the proposed development, I have to say that I am against it.. From what I understand, it is not sensitive to the scenic or social aspects of the area in question. Therefore I think it should not be allowed - or at least, if allowed, it should be greatly modified.

Yours faithfully,

Steven Isserlis
