

**Subject:**

Objection to construction of tall buildings on edge of Heath

I would like to express my objection to the planned high rises in Murphy's Yard.

My two main reasons are:

- 1) The Heath is a unique public space and the encroachment of tall buildings will forever change what is the closest thing we have to nature in this part of London.
- 2) Living in high rises has been shown to be unhealthy and harmful to the Community as well as to individuals. Human-size buildings -3-4 storeys - are preferable.

It would be dreadful for this area to be overcome by monster buildings blighting this natural asset.

Thank you.
