[REDACTED]

Dear Camden Planning Team,

This is an objection to the current plans for Murphy's Yard. I am very supportive of the idea of building housing at the site but at

- lower height
- lower density, more green space
- and with contracted low income housing and services such as a GP, deal office, etc.

The current proposal is simply overwhelming. The shadow and the scale are totally out of keeping with the area and with preservation of the Heath.

I am with the Heath and Hampstead Society in objecting to the plans.

Yours Faithfully,  
B Guenther
