2021/5946/P	Jason Gormley	10/02/2022 11:55:37	OBJ	<p>The community, and council, have prviously rejected installation of antennas and dishes on the Haddo House roof top. Will this new application prove less unsightly on a beautfiul local landmark? Will it be less unhealthy for the residents of the building? I don't want to look at it. And I certainly wouldn't want to live beneath or beside it. Please dismiss this application, and ban further applications for this kind of development on Haddo House. How many more times do people have to object, write in? Or put a time limit on when new applications can be made. The last one was a few short years ago.</p>
