Subject: Gospel Oak Development

[REDACTED]

Dear Planning

I am writing to add my voice to those opposed to this development in its current form. Although the site would benefit from re-development provided this is done responsibly, the plan to erect high rise buildings at this site is irresponsible. The buildings would block the beautiful views from the Heath to London in the south. They would also completely change the character of this edge of the Heath by introducing immense blocks with more traffic including more local cars and lorry and van deliveries. It would also cause massive invasion of the local Heath as the only outdoor space available to the new residents and office workers. The scheme should be drastically reconsidered so that the development will be consistent with maintaining the quality of the Heath and its surroundings for all. At present the plan if implemented would destroy this for present and all future generations.

Sincerely
Victor Hoffbrand
