Hello - happy Sunday

I'm writing to object to the prospect of having two magnificent plane trees being cut down on 8 doughty street. As a Camden resident I believe we should plant more trees rather than killing some of the most precious ones. This is because of environmental concerns but there is more to it. I enjoy my stroll through the mews, and the plane trees are a big part of this. Given that east Bloomsbury is a conservation area we should be even more careful Pls keep the trees Thanks Will sels Saffron hill Ec1n 8qx
