Subject: Objection to application 2022/0419T

To whom it may concern,

I am writing to make my objection to the removal of these trees, much cherished members of our community. My house faces them directly and, tall as they are, they rise over the opposite houses giving the effect that nature is a real part of this small part of the inner city's environment. Their presence is never taken for granted and the sight of them is always a joy, so often a balm.

I am absolutely reassured that the disruption they are causing to their closest architecture can be solved by engineering. Please, please use the enormous amount of money it would cost to remove them, to save them. So many of the buildings within the immediate vicinity have lost their gardens due to insensitive planning and ignorant landlords. We need more areas of nature and especially trees for effective drainage and to alleviate pollution. Please do not remove this rare piece.

Yours faithfully,

Georgie Hopton
