2022/0382/T	G Power	13/02/2022 08:47:18	OBJ	<p>I have just been past No 68. These are not London planes. They are limes. And at this time of year you cannot tell whether they are dead or not. These are mature trees and of a species which is symbolic of the South Hampstead urban heritage. Obviously if when the leaves come back, and they are still not breaking into bud, then they might be dead, but otherwise we don't know. This type of tree takes many, many decades to reach this height. As has been proved by Covid lockdowns, we need our trees for our mental health and for the environment. Limes offer a haven for biodiversity given that they are a native tree. The 3 important things for community are heritage, biodiversity, the environment.</p>
