Description of the Proposal

Has the work or change of use already started?

Please note in regard to:

- **Fire Statements** From 1 August 2021, planning applications for buildings of over 18 metres (or 7 stories) tall containing more than one dwelling will require a 'Fire Statement' for the application to be considered valid. There are some exemptions. <u>View government planning</u> guidance on fire statements or access the fire statement template and guidance.
- **Permission In Principle** If you are applying for Technical Details Consent on a site that has been granted Permission In Principle, please include the relevant details in the description below.
- **Public Service Infrastructure** From 1 August 2021, applications for certain public service infrastructure developments will be eligible for faster determination timeframes. See help for further details or <u>view government planning guidance on determination periods</u>.

Description

Please describe details of the proposed development or works including any change of use

Part demolition of the existing roof extension with added extension with flat roof at the front as an addition to an existing pitched roof. The aim is to create a front terrace at the full width of the building and extend the internal space by one metre unifying the existing front terrace. Also, the current terrace floor is not properly insulated. We propose to raise the floor and insulate the terrace floor, consequently the discreet railing next to the front parapet wall would be added. Currently part of the existing extension is at the front wall of the building, the proposal would create a set back at full width. The proposed configuration floor area is slightly smaller than the existing layout by 0.3 sqm.
