**Subject:** Objection to application 2022/0419T  
**Importance:** High

Sent on behalf of Alison Goldfrap and Peter Culley

To whom it may concern,

We are writing to make an objection to application 2022/0419T. We are extremely disappointed and shocked that anyone in their right mind would consider removing these beautiful trees. Given the little amount of nature found in a city environment such as London it's immoral to take this away from the community.

We truly feel that there must be an alternative solution to save these trees, such as engineering and selective pruning to the canopy and roots under the direction of a qualified arboriculturist. The trees are an important part of this environment and certainly should not to be unnecessarily removed as an easy and thoughtless solution.

Yours sincerely,

Alison Goldfrap & Peter Culley
