Subject: Objection 2022/0419/T

Good afternoon,

I wish to object to the planned removal of these two London. I understand any damage to the Egypt Exploration Society's premises is relatively minor and an easy fix according to both an expert called in to assess the problem and the Egypt Exploration Society's own structural report.

I work in Roger Street and the London Plane trees are wonderfully majestic and a great asset to the area aesthetically and environmentally.

Save the trees!

Yours

Peter Johnson
